# 6" DOWNLIGHTS & WALLWASH

gotham®

EVO 6

EVO 6 HL

EVO Distributions

## Look ahead.

As with every Evo® luminaire, the open downlight has been designed to evolve as solid-state technology evolves, without compromising the quality of light. Delivered lumens, CCT and beam distribution — all of these will remain precisely as specified, even if the luminaire incorporates upgraded LED technology.

Used in combination with the open downlight, the open wallwash gives you the ability to illuminate vertical surfaces while maintaining a consistent visual rhythm in the ceiling.

- **SUPERIOR PERFORMANCE:** Outstanding delivered lumens up to 17,500lm + low wattage consumption consistently yielding over 110LPW + minimalist aperture = a highly efficacious, quiet ceiling application.
- **PATENTED BOUNDING RAY™ OPTICS:** Perfectly balance efficacy with aperture aesthetics.
- **CONTROL:** Consistent operation and performance to 1% dimming. Flexible dimming installation, with drivers enabled for 0-10V, DALI and DMX, plus an nLight enabled option.

## 6" DOWNLIGHTS &amp; WALLWASH

- **DELIVERED LUMENS** — 750 up to 17,500\*
- **COLOR TEMPERATURES** — 2700K, 3000K, 3500K, 4000K
- **DISTRIBUTION** — Downlight, Wallwash
- **CONTROL PERFORMANCE** — 0-10V dimming to 10%, 1% or less than 1%, DMX/RDM, and DALI, and nLight enabled options
- **CRI** — 85 typical, 90+ CRI option available
- **APERTURES** — Round & Square

\*delivered lumens vary based on the distribution selected
