Gotham is committed to providing the industry's best service for Architectural Downlighting products. Many of our products are available to service your needs for express delivery. The **Gotham quick ship** symbol helps you identify products that are stocked in our vast North American distribution network, or can be manufactured quickly - using our modular housings and high performance Bounding Ray® optical assemblies. **On product family pages where the Gotham quick ship symbol appears, click on it to see common product configurations that are either stocked (orange), or can be manufactured quickly to your order (yellow).**
