LUMINOUS CROSS BAFFLES WITH AN EDGE

gotham®

For over 60 years Gotham has advanced the cause of recessed downlighting and the “quiet ceiling.” That’s serious business. But there are times and places to lighten up. Make a distinct visual statement. Differentiate a space with light. Add unique character, give your design an edge. You want to play with light. So do we. That’s what ICE™ is about. **Have fun.**

ICE™ is designed to be noticed.
Use it selectively to accentuate
an area of interest, or throughout
a space to create a singular
visual signature.

DOWNLIGHTING WITH ATTITUDE

There's nothing complex about ICE. Just an imaginative use of clear acrylic baffles inside a soft-anodized aluminum reflector. We've taken a simple idea and made it work — beautifully.

ICE baffles are designed so that their edges appear more luminous than the surrounding aperture. Eyes are attracted to the edges while the vertical surfaces are virtually transparent — creating the illusion of a luminous element floating inside the aperture.

ICE is innovative. Designed to be noticed. Completely unique.

A PREMIUM QUALITY LIGHTING INSTRUMENT

ICE catches the eye with its luminous baffle edges, but don't let the decorative appearance fool you. This is a highly engineered recessed downlight featuring advanced optics for superior performance. Reflector design is based on our patented Bounding Ray™ optical principle, optimized for compact fluorescent lamps to ensure effective, efficient delivery of light into the space. 35° optical shielding is maintained, exhibiting smooth top-down flash as the lamp is revealed.

ICE BLADES. ICE TURBO: CHOOSE THE LOOK YOU LIKE

With ICE, you can select from four available baffle styles, all variations on this visually distinctive theme. **ICE Blades** offer 3 styles of intersecting cross-baffles — flush, round and angular configurations. The fourth, **ICE Turbo**, features three radial baffles supporting a central cylindrical element. ICE blades and ICE turbo baffles add varying degrees of accent to a space. Decorative and optical elements are fully integrated so that the visual effect, though distinctive, does not overwhelm the ceiling plane.

CREATE AN EFFECTIVE LIGHTING SCHEME

ICE luminaires are designed to complement other Gotham downlights, wallwash and directional accent products within a space — so you can achieve varying effects while maintaining basic continuity of appearance.

EASY INSTALLATION AND MAINTAINANCE

ICE fits into a standard Gotham compact fluorescent housing with all of its thoughtful mechanical features. Adjustable bar hangers, designed to accommodate virtually any ceiling structure, lock easily into position without the need for tools. A specially designed retention system holds trims snug to the ceiling.

Relamping and service are easily accomplished with tool-less access to lamps and ballasts. Trims return neatly to their original position without harm to surrounding surfaces.

Ask your lighting representative for detailed information on ICE decorative downlighting by Gotham. Or visit our website at www.gothamlighting.com.

Wherever and however you choose, ICE adds unique character, a subtle sparkle, while providing advanced optics for superior performance.

ORDERING INFORMATION

ICE BLADE

SERIES	LAMP/WATTAGE	REFLECTOR/COLOR	TRIM TYPE	VOLTAGE	BALLAST	OPTIONS
PDXF	1/18TRT	6AR Clear	CLRR Clear	MVOLT ²	(blank) GEB10 standard.	TRW White painted flange
	1/26TRT	8AR Clear	Round	120	Electronic ballast.	WLP With 35°K lamp (shipped separately).
	1/32TRT		CLRF Clear	277	DMHL Lutron Hi-Lume	LRC Provides compatibility with Lithonia Reloc System.
	1/42TRT		Flushed	347	electronic dimming ballast.	GMF ³ Single, slow-blow fuse (not available with MVOLT).
	1/57TRT ¹		Clear		ADEZ Advance Mark X	GLR ³ Single, fast-blow fuse (not available with MVOLT).
	2/18TRT ¹		Angular		Electronic dimming ballast.	RIF Radio Interference Filter.
	2/26TRT ¹					ELR ⁴ Emergency battery pack. Remote test switch provided.
	2/32TRT ¹					QDS Quick Disconnect for easy ballast replacement. Not available with ELR option.
	2/42TRT ¹					DS Dual switching. GSKT Gasketing. CP ⁴ Chicago Plenum. CAL Clear acrylic lens. For use where enclosed fixture is required. CSA Listed and labeled to comply with Canadian Standards.

ICE TURBO

SERIES	LAMP/WATTAGE	REFLECTOR/COLOR	VOLTAGE	BALLAST	OPTIONS
PDTF	1/18TRT	6AR Clear	MVOLT ²	(blank) GEB10 standard.	TRW White painted flange
	1/26TRT	8AR Clear	120	Electronic ballast.	WLP With 35°K lamp (shipped separately).
	1/32TRT		277	DMHL Lutron Hi-Lume	LRC Provides compatibility with Lithonia Reloc System.
	1/42TRT		347	electronic dimming ballast.	GMF ³ Single, slow-blow fuse.
	1/57TRT ¹			ADEZ Advance Mark X	GLR ³ Single, fast-blow fuse.
	2/18TRT ¹			Electronic dimming ballast.	RIF Radio Interference Filter.
	2/26TRT ¹				ELR ⁴ Emergency battery pack. Remote test switch provided.
	2/32TRT ¹				QDS Quick Disconnect for easy ballast replacement. Not available with ELR option.
	2/42TRT ¹				DS Dual switching. GSKT Gasketing. CP ⁴ Chicago Plenum. CSA Listed and labeled to comply with Canadian Standards.

- 1 Available in 8AR only.
- 2 Multi-volt electronic ballast capable of operating on any line voltage from 120V through 277V, 50 or 60 HZ.
- 3 Not available with MVOLT.
- 4 CP & ELR not available in combination.
